Subject Index

A
Abstracts of annual SPN conference
adolescents in acute procedural pain, self-selected distraction for, 137
anesthesia in deep sedation for MRI patients supported by nursing, 128–129
Arkansas children's hospital health care camp program, 135–136
breast milk, maternal, relationship with kangaroo holding, 137–138
cardiopulmonary resuscitation training for parents and caregivers of high-risk patient, 134–135
care partners and patient care technicians: impact on orientation, retention, and promotion of new graduates, 130
cerebral palsy, functional changes in children, adolescents, and young adults with, 138
child/adolescent pain experience, developmental framework of, 130
child care by unlicensed personnel, education and training to improve safety of medication administration, 130–131
children and environmental risks: pediatric nurses in action, 132
children outside PICU, hospitalized ventilator-dependent, 129
children, sedation for echocardiography in, 131
clinical excellence: education for surveys and beyond, 133
families of children with asthma, correlational study of secondhand smoke exposure in, 137
family-centered care principles during shift report, incorporation of, 135 (Abstracts of annual SPN conference)
family multidisciplinary rounds, 127
family presence during traumatic code situation, 128
interviewing skills, learning them via online module, 136
medically complex child scheduled for surgery, new initiatives in caring for, 130
nursing orientation, patients and families as faculty in, 135
nursing practice, complementary interventions for expansion of, 133
nursing, steps to improve communication for, 134
nursing work index-revised (NWI-R) survey, use in work environmental assessment, 137
obese children in perioperative period, nurses' reports on symptom severity and symptom management for, 138
organ donors in PICU, interdisciplinary collaborative model for early referral of, 131
paediatric patients with tracheostomy, improving the care for, 131–132
pain, in pediatric population, assessment and management of, 127
pain management in pediatric population, collaborative approach to, 131
pain, pediatric, OWIEE method for documentation, 127–128
patient education initiative: the know-it-all kids series, 134
patient safety/education and compliance, 136
patients with femur fracture, preoperative practice guidelines for, 131
patient with new tracheostomy in ICU and transition to inpatient unit, solution for standardizing the care of, 129
pediatric patients, incidence of falls in, 139
pediatric patients on mechanical ventilation, decreasing time for initial discharge to home, 129–130
pediatric tracheostomy, home transition with: impediments to parental education and discharge, 139
preoperative medication, creative way to administer, 127
registered nurses, effectiveness of staff nurse interview committee on retention/recruitment of, 134
technology dependent children and their families, ideal home nursing care for, 138–139
voices for nurses by nurses, 136
weight, exercise, and health: children's perspective, 139
young adult spinal defects clinic, 136

0882-5963/$ - see front matter
doi:10.1016/S0882-5963(06)00418-0

Abstracts of PENS convention 2006
adolescent female on psychotropic medications, metabolic complications of abnormal weight gain in, 236
adolescent, interferon α2b-related autoimmune thyroid disease in, 238
advanced practice nurses entering pediatric endocrinology, educational needs for, 240–241
black thyroid syndrome, potential rare side effects of medication, 237
CAH newborn screening, second-tier screening approach for, 240
children with new-onset type 1 diabetes, screening for celiac disease in, 234
child with growth hormone deficiency, type 1 diabetes, and chronic steroid use, treatment of, 241
child with primary hypothyroidism, pituitary tumor and hyperprolactinemia in, 237
communication with patients and parents, 234
endocrine electronic medical records, adventures in, 239
familial hypercholesterolemia in children, treatment with ezetimibe/simvastatin, 236
growth hormone deficiency and insufficiency, bone density after treatment, 235
growth hormone deficiency and mixed hyperlipidemia in a patient with Klinefelter syndrome, 236
healthy kids program, 234–235
injection using nutropin Aq cartridge, effect of pen needle brands and gauges, 239
lipoatrophy, treatment of, 236–237
McCune–Albright syndrome, 240
microalbuminuria in type 1 pediatric patient, implementation of guideline for identification of, 235
patient with Down syndrome, multiple endocrine disorders in, 237–238
12 years of PENS' research grant program, outcomes associated with, 234
primary insulin-like growth factor-1 deficiency, treatment of, 240
skilled endocrine nurses, knowledge deficit of, 241
therapeutic pancreatectomy for hyperinsulinism during infancy, development of diabetes during preadolescence/adolescence, 237
Addiction
nicotine in children, developmental concepts of, 108–114
ADHD, *see* Attention deficit hyperactivity disorder
Adolescent resilience
concept, and application of the evolutionary model of concept analysis to, 175–185
Adolescent(s)
in acute procedural pain, self-selected distraction for, 137 (Abstracts of annual SPN conference)
with congenital heart malformation, physical activity and perception of condition severity among, 244–249 (International pediatric nursing column)
with cystic fibrosis: attitudes toward physical activity in, 197–210
with eating disorders, ethical debating as therapy for, 161–166 (Clinical Practice column)
female on psychotropic medications, metabolic complications of abnormal weight gain in, 236 (Abstracts of PENS convention)
interferon α2b-related autoimmune thyroid disease in, 238 (Abstracts of PENS convention)
metasynthesis of life experiences of homeless, mothers, 340–349
pain experience, developmental framework of, 130 (Abstracts of annual SPN conference)
peer education for, by Teen HIV/AIDS prevention program, 378–384
perception of costs and rewards of Type 1 diabetes and its treatment, 211–221
with type 1 diabetes, self care of, 222–232
young adults, and children with cerebral palsy, functional changes in, 138 (Abstracts of annual SPN conference)
Adoption
international adoption as natural experiment, 276–289
Ambulatory surgery (AS)
imagery assessment in children, before and after, 115–125
Anesthesia
in deep sedation for MRI patients supported by nursing, 128–129 (Abstracts of annual SPN conference)
Asthma
families of children with, correlational study of secondhand smoke exposure in, 137 (Abstracts of annual SPN conference)
by parents of school-age children with, differences in demands and resources, 425–433

Attention deficit hyperactivity disorder (ADHD)
children with, importance of nurses as caregivers, 171–174 (Editorial)
Autism
screening for infants with developmental deficits and/or, 313–324 (International pediatric nursing column)

B
Beverage consumption
diet quality of toddlers with mother having, and in families with lowest incomes, 403–411
Bicycle
helmet use among children: overcoming barriers to use and increasing effectiveness, 35–44
Black thyroid syndrome
potential rare side effects of medication, 237 (Abstracts of PENS convention)
Breast-feeding
baby-mother nourishment, 57–58 (Child in the Community column)
Breast milk
maternal, relationship with kangaroo holding, 137–138 (Abstracts of annual SPN conference)

C
Cancer
in children, major stressors and their effects on well-being of, 59–66 (International pediatric column)
parents of children with, factors influencing treatment decision making roles of, 350–361
siblings of children with, conceptual analysis of transition in the context of, 256–265
Cardiopulmonary resuscitation
training for parents and caregivers of high-risk patient, 134–135 (Abstracts of annual SPN conference)
Celiac disease
screening children with new-onset type 1 diabetes for, 234 (Abstracts of PENS convention)
Cerebral palsy
functional changes in children, adolescents, and young adults with, 138 (Abstracts of annual SPN conference)
Child Health Policy column
childhood obesity: nursing policy implications, 308–310
children's mental health, 443–444
Child in the Community column
baby–mother nourishment, 57–58
children inhaling, 386–388
children's safety in cars, 242–243
drugging children, 140–141
school nurses and health disparities, 311–312
Children
adolescents, and young adults with cerebral palsy, functional changes in, 138 (Abstracts of annual SPN conference)
Arkansas children's hospital health care camp program, 135–136 (Abstracts of annual SPN conference)
with asthma, differences in demands and resources by parents of school-age, 425–433
bicycle helmet use among: overcoming barriers and increasing effectiveness, 35–44
with cancer, conceptual analysis of transition in the context of siblings of, 256–265
with cancer, major stressors and their effects on well-being of, 59–66 (International pediatric column)
care by unlicensed personnel, education and training to improve safety of medication administration, 130–131 (Abstracts of annual SPN conference)
childhood obesity: nursing policy implications, 308–310 (Child Health Policy column)
day surgery, need for preoperative preparation, 13–22
drugging children, 140–141 (Child in the Community column)
echocardiography in, sedation for, 131 (Abstracts of annual SPN conference)
and environmental risks: pediatric nurses in action, 132 (Abstracts of annual SPN conference)
factors influencing treatment decision making roles of parents of, with cancer, 350–361
familial hypercholesterolemia in, treatment with ezetimibe/simvastatin, 236 (Abstracts of PENS convention)
families of children with asthma, correlational study of secondhand smoke exposure in, 137 (Abstracts of annual SPN conference)
family presence during traumatic code situation, 128 (Abstracts of annual SPN conference)
with growth hormone deficiency, type 1 diabetes, and chronic steroid use, treatment of, 241 (Abstracts of PENS convention)
harmful medication errors in, analysis of USP's MEDMARXR data, 290–298

healthy kids program, 234–235 (Abstracts of PENS convention)
hospitalized obese children in perioperative period, symptom severity and symptom management for, 138 (Abstracts of annual SPN conference)
hospitalized ventilator-dependent children outside PICU, 129 (Abstracts of annual SPN conference)
imagery assessment in, before and after ambulatory surgery (AS), 115–125
inhaling in (Child in the Community column), 386–388
lipoatrophy, treatment of, 236–237 (Abstracts of PENS convention)
with long-term illness: parents' experiences of care, 153–160 (International pediatric column)
low-income hispanic, factors related to overweight and risk for overweight status among, 187–196
medically complex child scheduled for surgery, new initiatives in caring for, 130 (Abstracts of annual SPN conference)
medically fragile and developmentally delayed, social interactions at school, 299–307
mental health problems in (Child Health Policy column), 443–444
with new-onset type 1 diabetes, screening for celiac disease in, 234 (Abstracts of PENS convention)
nicotine addiction in, developmental concepts of, 108–114
obese, effective weight loss for, 45–56
pain experience, developmental framework of, 130 (Abstracts of annual SPN conference)
partnerships between professionals, parents and, 333–336 (Editorial)
perception of costs and rewards of Type 1 diabetes and its treatment, 211–221
with primary hypothyroidism, pituitary tumor and hyperprolactinemia in, 237 (Abstracts of PENS convention)
psychological adjustment in young, with chronic medical conditions, 362–367
relationship between health status, parent emotion, and parent behavior of Young African American and Latino, 434–442
responses to painful procedure when parents are distraction coaches, conceptual model of factors influencing, 88–98
responses to painful procedure when parents are distraction coaches, evaluating instruments for study on, 99–107
safety while in cars, 242–243 (child in the community column)
school nurses shortage, and health disparities, 311–312 (Child in the Community column)
sexual abuse in Botswana and Swaziland, knowledge and perceptions of parents regarding, 67–72 (International pediatric column)
with sickle cell disease, changes in sleep, food intake, and activity levels during painful episodes in, 23–34
skin care and skin integrity needs of hospitalized infants and (Clinical Practice column), 445–453
surgical preoperative preparation for, 397–399 (Editorial)
technology dependent, and their families, ideal home nursing care for, 138–139 (Abstracts of annual SPN conference)
with thalassemia, study on mothers caring in Athens, Greece, 142–152 (International pediatric column)
theory-based health behavior change techniques for prevention of obesity in, 266–275
weight, exercise, and health in their perspective, 139 (Abstracts of annual SPN conference)
and youth with special health care needs, self-management and adherence of, 253–255 (Editorial)
Clinical Practice column
an evidence-based approach to nasogastric tube management: special considerations, 388–393
ethical debating: therapy for adolescents with eating disorders, 161–166
nurses' ability to quantify stool in superabsorbent diapers, 325–328
nurse shadowing as focus for recruitment program, 73–79
skin integrity in hospitalized infants and children, a prevalence survey, 445–453
Congenital adrenal hyperplasia (CAH)
second-tier screening approach for CAH newborn screening, 240 (Abstracts of PENS convention)
Congenital heart malformation
physical activity and perception of condition severity among adolescents with,

244–249 (International pediatric nursing column)
Cystic fibrosis
adolescents with: attitudes toward physical activity in, 197–210

D
Diabetes
children with new-onset type 1 diabetes, screening for celiac disease in, 234 (Abstracts of PENS convention)
child with growth hormone deficiency, type 1 diabetes, and chronic steroid use, treatment of, 241 (Abstracts of PENS convention)
development during pre-/-adolescence due to therapeutic pancreatectomy for hyperinsulinism during Infancy, 237 (Abstracts of PENS convention)
microalbuminuria in type 1 pediatric patient, implementation of guideline for identification of, 235 (Abstracts of PENS convention)
perception of costs and rewards of Type 1 diabetes and its treatment in children and young adolescents, 211–221
young adolescents with type I diabetes, self-care of, 222–232
Diet quality
of toddlers with beverage consumed mother and in families with lowest incomes, 403–411
Distraction
self-selected, for adolescents in acute procedural pain, 137 (Abstracts of annual SPN conference)
Down syndrome
multiple endocrine disorders in patient with, 237–238 (Abstracts of PENS convention)

E
Echocardiography
in young children, sedation for, 131 (Abstracts of annual SPN conference)
Education
advanced practice nurses entering pediatric endocrinology, educational needs for, 240–241 (Abstracts of PENS convention)
patients safety/education and compliance, 136 (Abstracts of annual SPN conference)
special education, examining status of students: implications for pediatric nurses, 1–3 (Editorial)
Erratum, 87
Esophagus
in an infant following laser supraglottoplasty, NG tube misplacement into, 454–455
Exercise
physical activity and perception of condition severity among adolescents with congenital heart malformation, 244–249 (International pediatric nursing column)
and physical activity, attitude of adolescents with cystic fibrosis towards, 197–210
and physical activity, position statement of SPN Public Policy Committee, 80–82 (society news)
weight and health in children's perspective, 139 (Abstracts of annual SPN conference)

F
Family(ies)
of children with asthma, correlational study of secondhand smoke exposure in, 137 (Abstracts of annual SPN conference)
family-centered care principles during shift report, incorporation of, 135 (Abstracts of annual SPN conference)
family multidisciplinary rounds, 127 (Abstracts of annual SPN conference)
family presence during traumatic code situation, 128 (Abstracts of annual SPN conference)
and patients as faculty in nursing orientation, 135 (Abstracts of annual SPN conference)
of technology dependent children, ideal home nursing care for, 138–139 (Abstracts of annual SPN conference)
Femur fracture
development of preoperative practice guidelines for, 131 (Abstracts of annual SPN conference)

G
Growth hormone deficiency
and insufficiency, bone density after GH treatment, 235 (Abstracts of PENS convention)
and mixed hyperlipidemia in a patient with Klinefelter syndrome, 236 (Abstracts of PENS convention)
type 1 diabetes, and chronic steroid use, treatment of, 241 (Abstracts of PENS convention)

H
Health
weight and exercise in children's perspective, 139 (Abstracts of annual SPN conference)
Health literacy
urban low-income mothers and easy-to-read immunization information, 4–12
Health status
parent emotion, and parent behavior of Young African American and Latino children, relationship between, 434–442
Homeless adolescent mothers
metasynthesis of life experiences of, 340–349
Hypercholesterolemia, familial
treatment with ezetimibe/simvastatin in children, 236 (Abstracts of PENS convention)
Hyperinsulinism
during Infancy, therapeutic pancreatectomy for, development of diabetes during preadolescence/adolescence, 237 (Abstracts of PENS convention)
Hyperlipidemia, mixed
growth hormone deficiency and in patient with Klinefelter syndrome, 236 (Abstracts of PENS convention)
Hyperprolactinemia
and pituitary tumor in child with primary hypothyroidism, 237 (Abstracts of PENS convention)
Hypothyroidism, primary
pituitary tumor and hyperprolactinemia in child with, 237 (Abstracts of PENS convention)

I
IDEA, *see* Individuals with Disabilities Education Act
Immunization
easy-to-read information, and urban low-income mothers, 4–12
Individuals with Disabilities Education Act (IDEA)
reports on special education students/programs, 1–3 (Editorial)
Infants
with developmental deficits and/or autism, screening for, 313–324 (International pediatric nursing column)
skin care and skin integrity needs of hospitalized children and (Clinical Practice column), 445–453
Inhaling
by childrens (Child in the Community column), 386–388
International pediatric column
children with cancer, major stressors and their effects on well-being of, 59–66
children with long-term illness: parents' experiences of care, 153–160
children with thalassemia, study on mothers caring in Athens, Greece, 142–152
child sexual abuse in Botswana and Swaziland, knowledge and perceptions of parents regarding, 67–72
International pediatric nursing column
adolescents with congenital heart malformation, physical activity and perception of condition severity among, 244–249
infants with developmental deficits and/or autism, screening for, 313–324

J
Journal of Pediatric Nursing
attention deficit hyperactivity disorder: nurses are important members of the team, 171–174 (Editorial)
nursing shortage, pediatric and child family nursing, 85–87 (Editorial)
parent-professional partnerships: bridging the disparate worlds of children, families, and professionals, 333–336 (Editorial)
self-management and adherence of children and youth with special health care needs: implications for pediatric nursing practice, 253–255 (Editorial)
status of special education students, implications for pediatric nurses in examination of, 1–3 (Editorial)
surgical preoperative preparation for children: the need for more evidence from nurse scientists, 397–399 (Editorial)

K
Klinefelter syndrome
growth hormone deficiency and mixed hyperlipidemia in patient with, 236 (Abstracts of PENS convention)

L
Laser supraglottoplasty
NG tube misplacement into the esophagus in an infant following, 454–455
Lipoatrophy
treatment of, 236–237 (Abstracts of PENS convention)

M
Mann–Whitney U test
differences in demands and resources by parents of school-age children with asthma, 425–433
McCune–Albright syndrome, 240 (Abstracts of PENS convention)
MEDMARXR program
data on harmful medication errors in children, 290–298
Mental health
problems in children (Child Health Policy column), 443–444
Microalbuminuria
in type 1 pediatric patient, implementation of guideline for identification of, 235 (Abstracts of PENS convention)
Mother(s)
baby-mother nourishment, 57–58 (Child in the Community column)
care for children with thalassemia, study in Athens, Greece, 142–152 (International pediatric column)
diet quality of toddlers with, having beverage consumption and in families with lowest incomes, 403–411
metasynthesis of life experiences of homeless adolescent, 340–349
urban low-income, and easy-to-read immunization information, 4–12

N
NALS, *see* National Adult Literacy Survey
Nasogastric (NG) tube(s)
management, evidence-based approach for policy revision of pediatric (Clinical Practice column), 388–393
misplacement into the esophagus in an infant following laser supraglottoplasty, 454–455
National Adult Literacy Survey (NALS)
urban low-income mothers, and easy-to-read immunization information, 4–12
NG tube, *see* Nasogastric tubes
Nicotine addiction
developmental concepts of, 108–114
Nurse(s)
ability to quantify stool in superabsorbent diapers, 325–328 (Clinical Practice column)
advanced practice nurses entering pediatric endocrinology, educational needs for, 240–241 (Abstracts of PENS convention)
children with ADHD, importance of nurses as caregivers, 171–174 (Editorial)
communication with patients and parents, 234 (Abstracts of PENS convention)
pediatric, implications in examining status of special education students, 1–3 (Editorial)
pediatric, role in providing healthy environment for children, 132 (Abstracts of annual SPN conference)
recruitment program, nurse shadowing as focus for, 73–79 (Clinical Practice column)
registered nurses, effectiveness of staff nurse interview committee on retention/recruitment of, 134 (Abstracts of annual SPN conference)
school nurses and health disparities, 311–312 (Child in the Community column)
skilled endocrine nurses, knowledge deficit of, 241 (Abstracts of PENS convention)
voices for nurses by nurses, 136 (Abstracts of annual SPN conference)
Nursing
anesthesia in deep sedation for MRI patients supported by, 128–129 (Abstracts of annual SPN conference)
communication for, steps to improve, 134 (Abstracts of annual SPN conference)
self-management and adherence of children and youth with special health care needs, 253–255 (Editorial)
shortage, pediatric and child family nursing, 85–87 (Editorial)
work environmental assessment, use of nursing work index-revised (NWI-R) survey in, 137 (Abstracts of annual SPN conference)
Nursing care
home nursing care for technology dependent children and their families, 138–139 (Abstracts of annual SPN conference)
Nursing orientation
patients and families as faculty in, 135 (Abstracts of annual SPN conference)
Nursing practice
complementary interventions for expansion of, 133 (Abstracts of annual SPN conference)

O
Obesity
in childhood: nursing policy implications, 308–310 (Child Health Policy column)
in children, effectiveness of weight-loss interventions for, 45–56
in children, theory-based health behavior change techniques for prevention of, 266–275

hospitalized obese children in perioperative period, symptom severity and symptom management for, 138 (Abstracts of annual SPN conference)
overweight and risk for over weight status among low-income hispanic children, factors related to, 187–196
Organ donors
in PICU, interdisciplinary collaborative model for early referral of, 131 (Abstracts of annual SPN conference)

P
Pain
acute procedural, in adolescents, self-selected distraction for, 137 (Abstracts of annual SPN conference)
child/adolescent experience, developmental framework of, 130 (Abstracts of annual SPN conference)
children's responses to parents as distraction coaches during painful procedure, conceptual model of factors influencing, 88–98
children's responses to parents as distraction coaches during painful procedure, evaluating instruments for study on, 99–107
in children with sickle cell disease, changes in sleep, food intake, and activity levels during, 23–34
pediatric, OWIEE method for documentation, 127–128 (Abstracts of annual SPN conference)
in pediatric population, assessment and management of, 127 (Abstracts of annual SPN conference)
Pain management
in pediatric population, collaborative approach to, 131 (Abstracts of annual SPN conference)
Parents
and caregivers of high-risk patient, cardiopulmonary resuscitation training for, 134–135 (Abstracts of annual SPN conference)
of children with cancer, factors influencing treatment decision making roles of, 350–361
child sexual abuse in Botswana and Swaziland, knowledge and perceptions of, 67–72 (International pediatric column)
as distraction coaches during painful procedure, and children's responses, conceptual model of factors influencing, 88–98
as distraction coaches during painful procedure, and children's responses, evaluating instruments for study on, 99–107
partnerships between professionals, children and, 333–336 (Editorial)
of school-age children with asthma, differences in demands and resources by, 425–433
Parent behavior
parent emotion, and health status of Young African American and Latino children, relationship between, 434–442
Parent emotion
parent behavior, and health status of Young African American and Latino children, relationship between, 434–442
Patients
with Down syndrome, multiple endocrine disorders in, 237–238 (Abstracts of PENS convention)
and families as faculty in nursing orientation, 135 (Abstracts of annual SPN conference)
with femur fracture, development of preoperative practice guidelines for, 131 (Abstracts of annual SPN conference)
high-risk, cardiopulmonary resuscitation training for parents and caregivers of, 134–135 (Abstracts of annual SPN conference)
with Klinefelter syndrome, growth hormone deficiency and mixed hyperlipidemia in, 236 (Abstracts of PENS convention)
MRI, anesthesia in deep sedation for, 128–129 (Abstracts of annual SPN conference)
with new tracheostomy in ICU and transition to inpatient unit, standardizing the care of, 129 (Abstracts of annual SPN conference)
patient education initiative: the know-it-all kids series, 134 (Abstracts of annual SPN conference)
safety/education and compliance, 136 (Abstracts of annual SPN conference)
Patients, paediatric
incidence of falls in, 139 (Abstracts of annual SPN conference)
on mechanical ventilation, decreasing time for initial discharge to home, 129–130 (Abstracts of annual SPN conference)
microalbuminuria in type 1 diabetes, implementation of guideline for identification of, 235 (Abstracts of PENS convention)
with tracheostomy, improving care for, 131–132 (Abstracts of annual SPN conference)
Pediatric Endocrinology Nursing Society (PENS)
abstacts of convention 2006, 234–141

12 years of PENS' research grant program, outcomes associated with, 234 (Abstracts of PENS convention)
Pediatric intensive care unit (PICU)
interdisciplinary collaborative model for early referral of pediatric organ donors in, 131 (Abstracts of annual SPN conference)
Peer education project
preparing pediatric nurses and teachers for, by Teen HIV/AIDS Prevention program, 378–384
Peer educators
for Teen HIV/AIDS Prevention program, 378–385
PENS, *see* Pediatric Endocrinology Nursing Society
PICU, *see* Pediatric intensive care unit
Pituitary tumor
and hyperprolactinemia in child with primary hypothyroidism, 237 (Abstracts of PENS convention)
Primary insulin-like growth factor-1 deficiency, treatment of, 240 (Abstracts of PENS convention)
Psychological adjustments
in children with chronic medical conditions, 362–367

S
Self-management
changing patterns of, in youth with type I diabetes, 412–424
Sickle cell disease
in children with, changes in sleep, food intake, and activity levels during painful episodes, 23–34
Skin care
and skin integrity needs of hospitalized infants and children (Clinical Practice column), 445–453
Skin integrity
and skin care needs of hospitalized infants and children (Clinical Practice column), 445–453
Smoking
nicotine addiction in children, developmental concepts of, 108–114
secondhand exposure in families of children with asthma, correlational study of, 137 (Abstracts of annual SPN conference)
Society of Pediatric Nurses (SPN)
abstacts of annual conference, 127–139
acknowledgment to 2005 corporate members, 167 (society news)
financial update for 2006 (SPN News), 294–295
leadership initiative, 456–457 (SPN news)
magic of pediatric nursing, report on 16th annual conference, 329–331 (SPN news)
position statement on exercise and physical activity, 80–82 (society news)
position statement on role of pediatric nurse working with sexually active teens, pregnant adolescents, and young parents, 250–252 (society news)
society news, 80–83, 167–170, 250–252
Special education
examining status of students: implications for pediatric nurses in, 1–3 (Editorial)
SPN, *see* Society of Pediatric Nurses
Sudden sniffing death syndrome
inhaling in childrens (Child in the Community column), 386–388
Surgery
pediatric anxiety: child life intervention in day surgery, 13–22
preoperative preparation for, in children, 397–399 (Editorial)

T
Teen HIV/AIDS Prevention program
preparing pediatric nurses and teachers to become peer educators for, 378–385
Thalassemia
children with, study on mothers caring in Athens, Greece, 142–152 (International pediatric column)
Thyroid
black thyroid syndrome, potential rare side effects of medication, 237 (Abstracts of PENS convention)
child with primary hypothyroidism, pituitary tumor and hyperprolactinemia, 237 (Abstracts of PENS convention)
interferon α2b-related autoimmune thyroid disease in adolescent, 238 (Abstracts of PENS convention)
Toddlers
diet quality of, with beverage consumed mother and in families with lowest incomes, 403–411
Tracheostomy
paediatric patients with, improving the care for, 131–132 (Abstracts of annual SPN conference)
patients in ICU with, transition to inpatient unit, standardizing the care of, 129 (Abstracts of annual SPN conference)

pediatric, home transition with: impediments to parental education and discharge, 139 (Abstracts of annual SPN conference)
Transition
conceptual analysis in the context of siblings of children with cancer, 256–265
Treatment decision making (TDM)
factors influencing, roles of parents for their children with cancer, 350–361
Type I diabetes
changing patterns of self-management in youth with, 412–424

W
Weight
exercise and health in children's perspective, 139 (Abstracts of annual SPN conference)
Wilson's Knowledge About Immunization Test (W-KAIT)
for DTaP and MMR, 4–12
W-KAIT, *see* Wilson's Knowledge About Immunization Test

Y
Young adolescents
perception of costs and rewards of Type 1 diabetes and its treatment, 211–221
with type 1 diabetes, self care of, 222–232
Young adult(s)
adolescents, and children with cerebral palsy, functional changes in, 138 (Abstracts of annual SPN conference)
spinal defects clinic, 136 (Abstracts of annual SPN conference)
Youth
changing patterns of self-management in, with type I diabetes, 412–424
with special health care needs, self-management and adherence of, 253–255 (Editorial)
